Explanation of symbols used :—B.—Births, B.R.—Birth Rate; C.—Cholera; S.—Smallpox; P.—Plague; F.—Fever; D. D.—Dysentery and Diarrhoea; R.D.—Respiratory Diseases; M. D.—Maternal Deaths; D.R.—Death Rate; I.D.—Infantile Deaths (included in total deaths); ..—Nil information.

REMARKS

The figures of births and deaths shown in this statement for week ending the 16th April, 1955, relate to 172 towns with an estimated population of 20,158 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 57% of the total number of towns representing 52% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 11,327 and 4,727 representing birth and death rates of 29·2 and 12·2 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 152 towns with an estimated population of 17,215 thousands. Information about Ajmer, Bhopal, Bombay and West Bengal could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 60% of the total number of towns representing 53% of the total population is covered. The number of births and deaths recorded in these towns were 9,878 and 4,198 representing

birth rates and death rates of 29·8 and 12·7 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 20 towns with an estimated population of 2,943 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 42% of the total number of towns representing 46% of the total population is covered. The number of births and deaths recorded in these towns were 1,449 and 529 representing birth and death rates of 25·6 and 9·5 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
